WEEE, REACH & RoHS Compliance

Commitment

The management and staff of [E³] Engstler Elektronik Entwicklung GmbH are committed to implementing the requirements of the Waste Electrical and Electronic Equipment (WEEE), the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and the Restriction of certain Hazardous Substances (RoHS) directives.

WEEE Compliance

[E³] is registered with the Stiftung Elektro-Altgeräte Register (<http://www.stiftung-ear.de/>) under registration number **DE56067191** for category 3 *information and telecommunications technology* and product type *professional goods*.

All SA, SI and SM switches as well as SP and SL accessories fall under the component category and are, therefore, exempted from the requirements of the WEEE.

All DS and CP products are b2b professional products not intended for household use.

This determination by [E³] is based on a careful review of the applicable law and application of the required tests in accordance with the German act governing the sale, return and environmentally sound disposal of electrical and electronic equipment (Electrical and Electronic Equipment Act or ElektroG).

REACH Compliance

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

- Under the structure of the REACH Regulation, [E³] is a manufacturer and supplier of “articles” to our EU customers. We do not manufacture or supply “substances” or “preparations” and our articles do not involve the “intentional release of substances”. Accordingly, we foresee no registration or pre-registration requirement for the products we supply.
- [E³] is monitoring the substances of very high concern (SVHCs), as defined by REACH, in our products. This will be an on-going process since the complete list of SVHCs will be released in stages.
- The customers are encouraged to visit the following site to get the most up to date information on SVHCs under REACH: <https://echa.europa.eu/regulations/reach>
- To the best of our knowledge [E³] products (articles) do not contain Substances of Very High Concern (SVHC) above the threshold value declared as per ECHA by January 12, 2017 with 173 SVHCs.

RoHS Compliance

[E³] is a leading supplier of programmable LCD switches and control panels systems with programmable LCD switches. Our products are often directly installed in electronic equipment.

[E³] is aware of the EU Directive 2011/65/EU (RoHS) further limiting the use of certain hazardous substances in electric and electronic equipment.

Declaration of Conformity to EU RoHS 2

[E³] Engstler Elektronik Entwicklung GmbH declares that, to the best of our knowledge, all electrical and electronic equipment (EEE) sold by the company are in compliance with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic

WEEE, REACH & RoHS Compliance Update

equipment. Products manufactured by [E³] do not contain the substances listed in the table below in concentrations greater than the listed maximum value.

Substance	Maximum Limit (ppm)
Lead (Pb)	< 1000
Cadmium (Cd)	< 100
Mercury (Hg)	< 1000
Hexavalent Chromium (Cr6+)	< 1000
Poly Brominated Biphenyls (PBB)	< 1000
Poly Brominated Diphenyl ethers (PBDE)	< 1000
